ADMINISTRATIVE COURSE REVIEW SUMMARY REPORT FOR THE DECEMBER (2026) ED POC MEETING

NEW COURSES…December 2026 ED POC Meeting

1.) Course Number 1451.0….

Course: Advanced Florida Building Code (2026) 9th Edition: Significant Changes for Contractors, Internet
Provider: Anytime Certification
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 11/06/2026
This is a 1-hour online course that teaches Florida contractors what the Florida Building Code, 9th Edition (2026) changes for their work and what it carries forward unchanged: which edition governs a permit, wind design and opening protection, reroofing and section 553.844 mitigation, flood-resistant construction, residential energy and ventilation, and product approvals across the transition.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

2.) Course Number 1452.0….

Course: Advanced Florida Building Code (2026) 9th Edition – Changes for Electrical Contractors, Internet
Provider: Anytime Certification
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 11/06/2026
This is a 1-hour online course that teaches Florida electrical contractors what the Florida Building Code, 9th Edition (2026) changes for their work: the NFPA 70-23 reference and which edition governs a permit, electrical repairs in existing buildings, EV charging, smoke and CO alarms, energy storage, photovoltaic systems, flood-damaged equipment, electrical room doors, and lighting and power changes in the energy code.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

3.) Course Number 1437.0….

Course: Advanced FBC 9th Edition (2026) Metal Roofing
Provider: FRSA – Fl. RFG., Sheet Metal, Air Cond. Cont. Assn.
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 11/02/2026
This is a 2-hour instructor led course that provides an overview of metal roofing materials and coatings before discussing sections of the Florida Building Code, Building Chapter 15 pertaining to metal roofing. Code topics include definitions, weather protection, performance requirements, fire classification, materials, roof coverings, product approvals, exposure categories, risk categories and uplift requirements. Industry warranties, best practices and installation issues are also covered.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

4.) Course Number 1444.0….

Course: Advanced (2026) 9th Ed.: Building Code Changes - Internet
Provider: Florida Trade License Inc.
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 11/02/2026
This is a 1-hour online course that describes the changes between the 8th Edition (2023) and 9th Edition (2026) Florida Building Code, Building, drawn from the Florida Building Commission's Analysis of Changes. It covers administrative and flood documentation changes, risk categories, construction site safety, saltwater corrosion resistance, exterior walls and roofing, and how to verify claims about code changes.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

5.) Course Number 1445.0….

Course: Advanced 2026 FBC 9th Ed.: Electrical & 2023 NEC - Internet
Provider: Florida Trade License Inc.
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 11/02/2026
This is a 1-hour online course that explains the electrical changes that take effect with the 9th Edition (2026) Florida Building Code. It covers the move from the 2020 to the 2023 National Electrical Code through Chapter 27's adoption by reference, the Article 210 GFCI and AFCI

changes, electrical-related provisions changed elsewhere in the Building Volume, and two Florida swimming pool amendments.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

6.) Course Number 1441.0….

Course: 2026 Advanced Building Code Internet Course – Gable End Anchoring & Framing in High Velocity Hurricane Zones
Provider: A Builders License Training Institute
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 11/02/2026
This is a 1-hour online course that provides the one-hour of Advanced Building Code CE which, in addition to a one-hour Advanced Building Code Update class would satisfy the minimum requirement for renewing an architect's license in Florida. It covers a selection of codes from Chapters 16, 21, 22, and 23 that deal directly with design and construction of structures in Florida's High-Velocity Hurricane Zones.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

7.) Course Number 1442.0….

Course: 9th Ed. (2026) Florida Advanced Building Code, Building: Significant Changes – 2 CEH (Online)
Provider: Ezekiel Enterprises, LLC
Accreditor: Bill Dumbaugh
Accreditation Date: 10/30/2026
This is a 2-hour online course that reviews the most significant changes between the 8th Edition (2023) and 9th Edition (2026) Florida Building Code, Building. In chapter sequence, it covers lithium-ion battery and flammable gas hazards, high-rise fire protection, storm shelter and hospital sprinkler updates, exterior wall fire testing, egress and school security, structural loads and flood design, a new saltwater corrosion standard, and updated roofing, temporary structure, and site safety requirements.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

8.) Course Number 1433.0….

Course: 2026 Advanced Florida Building Code: Hurricane Mitigation Methodologies, 9th Edition
Provider: Contractors Institute
Accreditor: JDB Code Services, Inc.
Accreditation Date: 10/30/2026
This is a 1-hour instructor-led course that reviews hurricane mitigation requirements in the 2026 Florida Building Code, 9th Edition, including roof decking attachment, secondary water barriers, roof-to-wall connections, and opening protection for existing structures.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

9.) Course Number 1434.0….

Course: 2026 Residential Advanced Florida Building Code - Internet
Provider: At Your Pace Online
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 10/23/2026
This is a 1-hour online course that covers a selection of changes to the 9th Edition (2026) Florida Building Code, Residential (FBC-R) from the 8th Edition (2023), including changes affecting Wind Speed Definitions, the Windborne Debris Region, Stairways, Smoke and Carbon Monoxide Alarms, Flood-Resistant Construction, Corrosion Resistance in Saltwater Environments, Sleeping Lofts, Exterior Wall Coverings, Soffits, Roof Assemblies, Energy Storage Systems, and the Residential Energy Code.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

10.) Course Number 1435.0….

Course: 2026 Residential Advanced Florida Building Code - Internet
Provider: A Builders License Training Institute
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 10/23/2026
This is a 1-hour online course that covers a selection of changes to the 9th Edition (2026) Florida Building Code, Residential (FBC-R) from the 8th Edition (2023), including changes affecting Wind Speed Definitions, the Windborne Debris Region, Stairways, Smoke and Carbon Monoxide Alarms, Flood-Resistant Construction, Corrosion Resistance in Saltwater

Environments, Sleeping Lofts, Exterior Wall Coverings, Soffits, Roof Assemblies, Energy Storage Systems, and the Residential Energy Code.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

11.) Course Number 1436.0….

Course: 2026 Residential Advanced Florida Building Code - Internet
Provider: Jade Learning
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 10/23/2026
This is a 1-hour online course that covers a selection of changes to the 9th Edition (2026) Florida Building Code, Residential (FBC-R) from the 8th Edition (2023), including changes affecting Wind Speed Definitions, the Windborne Debris Region, Stairways, Smoke and Carbon Monoxide Alarms, Flood-Resistant Construction, Corrosion Resistance in Saltwater Environments, Sleeping Lofts, Exterior Wall Coverings, Soffits, Roof Assemblies, Energy Storage Systems, and the Residential Energy Code.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

12.) Course Number 1419.0….

Course: Florida Building Code, 2026 9th Edition, Chapter 9, Fire Protection Systems, Advanced Building Code
Provider: Stay Safe Ventures, LLC
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 10/12/2026
This is a 1-hour online course that provides an in-depth review of Chapter 9 of the Florida Building Code, 2026 9th Edition, focusing on fire protection systems and their application in building design and construction. Participants will explore code requirements for fire alarm systems, automatic sprinkler systems, standpipes, fire pumps, and other fire protection measures, with emphasis on compliance, system coordination, and practical application of the code.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

13.) Course Number 1421.0….

Course: Florida Building Code, Chapter 27, Electrical, Advanced Building Code Course, 9th Edition
Provider: Stay Safe Ventures, LLC
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 10/12/2026
This is a 1-hour online course that provides an in-depth review of Chapter 27, Electrical, of the Florida Building Code, 9th Edition. Participants will examine key electrical requirements related to building design, installation, safety, wiring methods, equipment, and electrical systems, with an emphasis on code compliance and practical application in construction and inspection.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

14.) Course Number 1422.0….

Course: Florida Building Code, 9th Edition and Florida Statutes 489 & 533, Advanced Course
Provider: Stay Safe Ventures, LLC
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 10/12/2026
This is a 1-hour online course that provides an in-depth review of Florida's current building code requirements and the statutory framework governing construction, permitting, and building regulations. The course emphasizes advanced code application, compliance, enforcement, and practical interpretation of Florida Statutes Chapter 533.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

15.) Course Number 1430.0….

Course: 2026 Advanced FBC Significant Code Changes
Provider: Florida Contractors License, Inc.
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date:10/05/2026
This is a 1-hour online course that provides an overview of significant changes and updates to the 2026 Florida Building Code. Participants will review key code revisions, new requirements, and their practical application to construction, permitting, inspections, and code compliance. The course is designed to help Florida contractors understand and properly apply updated code requirements in their daily work

As a result of an administrative review of this course, ***I found no issues and recommend approval.***

16.) Course Number 1425.0….

Course: Advanced FBC 9th Edition (2026) Roofing Changes
Provider: FRSA – Fl Rfg., Sheet Metal, Air Cond. Cont. Assn.
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 9/30/2026
This is a 2-hour instructor led course that provides updates on roofing related changes to the 2026 Florida Building Code Ninth Edition Building, Residential, Existing Building and Test Protocols for the High Velocity Hurricane Zone--Noting changes from the 2023 Florida Building Code, Eighth Edition. This course will also compare FBC Building Chapter 15, FBC Residential Chapter 9 and Existing Building Chapter 7, showing the similarities and differences between these chapters.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

17.) Course Number 1426.0….

Course: 1 Hour Florida Building Code Mechanical 9th Edition (2026) Advanced Internet Course
Provider: 1st Choice CE
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 9/30/2026
This is a 1-hour online course that covers the 9th Edition (2026) Florida Building Code, Mechanical, as an update from FBC #1238.0 (8th Edition 2023 Mechanical Advanced Internet).
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

18.) Course Number 1427.0….

Course: Advanced Building Module Changes to Florida Building Code 9th Edition (2026)
Provider: Contractor ETC, LLC
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 9/28/2026
This is a 1-hour online course that explains significant changes to Residential Code (Lesson 1), Existing Building Code (Lesson 2) and Building Code (Lesson 3).

As a result of an administrative review of this course, ***I found no issues and recommend approval.***

19.) Course Number 1428.0….

Course: 2026 Advanced Florida Building Code: Existing Building, 9th Edition
Provider: Contractors Institute
Accreditor: JDB Code Services, Inc.
Accreditation Date: 10/26/2026
This is a 7-hour instructor led course that reviews the 2026 Florida Building Code, Existing Building, 9th Edition, including scope and administration, definitions, compliance methods, repairs, prescriptive compliance, classification of work, Level 1-3 alterations, changes of occupancy, additions, and construction safeguards.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

20.) Course Number 1429.0….

Course: 9th Edition (2026) Advanced Florida Plumbing Code: Significant Changes
Provider: Plumbing Contractors Association
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 10/07/2026
This is a 1-hour instructor led course that reviews significant changes from the 8th Edition (2023) to the 9th Edition (2026) Florida Building Code, Plumbing. Topics include testing, fixtures, water heaters, water distribution, drainage, venting, and pipe rehabilitation. Code comparisons and field examples explain how changes affect design, installation, inspection, and compliance documentation.
After an administrative review of this course, it was found that*…*

a. The course number "1375.0" should be changed to "1429.0" on page 1 of the Syllabus
b. The course number "1375.0" should be changed to "1429.0" at the bottom of all of the PowerPoint slides.
c. **As a result, I recommend denial of this course because it does not meet the full requirements of Rule 61G20-6.002. However, the ED POC could motion to instead conditionally approve this course, subject to all of the noted changes of "1375.0" to "1429.0" in the Syllabus and PowerPoint.**

21.) Course Number 1418.0….

Course: 2026 Advanced Building Code 9th Edition – Plumbing – Significant Code Changes
Provider: Southard Engineering, Inc.
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 09/26/2026
This is a 1-hour online course that reviews the significant code changes in the 9th Edition update to the 2026 Florida Building Code, Plumbing as compared to the 8th Edition 2023 Florida Building Code, Plumbing. This is an advanced code course that covers the most significant changes in the 2023 Florida Building Code, Plumbing and is designed for civil engineers
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

22.) Course Number 1395.0….

Course: 2026 Florida Advanced Building Code: Accessibility, Application and Administration, 9th Edition
Provider: Vector Solutions
Accreditor: Bill Dumbaugh
Accreditation Date: 09/23/2026
This is a 1-hour online course that examines Chapter 1 of the 2026 Florida Building Code: Accessibility, 9th Edition, covering application and administration. It explains how the Florida accessibility volume is organized, how Florida-specific provisions interact with the federal ADA framework under Titles II and III, and how application and administration provisions affect design, plan review, permitting, inspection, and final approval.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

23.) Course Number 1416.0….

Course: 2026 Advanced Building Code 9th Edition – Significant Code Changes - Internet
Provider: Southard Engineering, Inc.
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 09/23/2026
This is a 1-hour online course that reviews the significant code changes in the 9th Edition update to the 2026 Florida Building Code, as compared to the 8th Edition 2023 Florida Building Code. *As a result of an administrative review of this course,* ***I found no issues and recommend approval.***

24.) Course Number 1417.0….

Course: 2026 Advanced Building Code 9th Edition – Mechanical – Significant Code Changes
Provider: Southard Engineering, Inc.
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 09/23/2026
This is a 1-hour online course that reviews the significant code changes in the 9th Edition update to the 2026 Florida Building Code, Mechanical as compared to the 8th Edition 2023 Florida Building Code, Mechanical. This is an advanced code course that covers the most significant changes in the 2026 Florida Building Code, Mechanical and is designed for mechanical engineers.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

25.) Course Number 1400.0….

Course: Concrete Tile Roofing For High Wind Regions: Florida Advanced Building Code (9th Ed.) Requirements
Provider: Ron Blank & Associates, Inc.
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 9/22/2026
This is a 2-hour instructor led course that examines the design, performance, and installation of concrete roof tile systems in high wind and hurricane prone regions, with a focus on Florida Building Code requirements. Topics include wind loads, uplift pressures, roof slopes, underlayments, flashings, attachment methods, and installation practices from the FRSA TRI Florida High Wind Concrete and Clay Tile Installation Manual, including HVHZ considerations.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

26.) Course Number 1411.0….

Course: FBC Advanced Module: 2026 Swimming Pool Updates
Provider: Florida Swimming Pool Association
Accreditor: Bill Dumbaugh
Accreditation Date: 09/21/2026
This is a 2-hour instructor led course that explains the changes to public pool code requirements in 2026 to ensure compliance as a pool contractor.

As a result of an administrative review of this course, ***I found no issues and recommend approval.***

27.) Course Number 1424.0….

Course: Advanced FBC 9th Edition (2026) Roof-to-Wall Connections
Provider: FRSA – Fl Rfg., Sheet Metal, Air Cond. Cont. Assn.
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 09/21/2026
This is a 2-hour instructor-led course. Roofing contractors are now permitted to evaluate and retro-fit roof-to-wall connections as part of a reroof. This course explains when mitigation requirements apply, Florida Building Code requirements (that differ from insurance mitigation requirements), navigating the uniform mitigation verification inspection form and evaluating and retro-fitting roof-to-wall connections.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

28.) Course Number 1415.0….

Course: Advanced Florida Building Code, 9th Ed.: Plan Review, Flood Documentation & Temporary Structures
Provider: BuilderCE
Accreditor: Nodorah Training Institute - 2
Accreditation Date: 09/22/2026
This is a 1-hour online course that is designed to address advanced Florida Building Code requirements related to reviewing plans, flood-resistant construction documentation, and temporary structures. It focuses on code compliance, documentation, permitting considerations, and practical application of these requirements by design and construction professionals in Florida.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

29.) Course Number 1368.0….

Course: 8th Edition (2023) Advanced Florida Building Code
Provider: Progressio LLC
Accreditor: JDB Code Services, inc.
Accreditation Date: 09/24/2026

This is a 1-hour online course that describes the 8th Edition (2023) Advanced Florida Building Code: Structural, Wind Mitigation, and Energy Conservation Mandating.
***NOTE**: The provider (Mr. Guavera) is aware that this course will be out of date on January 1st, 2027.*
Otherwise…As a result of an administrative review of this course, ***I found no issues and recommend approval.***

30.) Course Number 1448.0….

Course: Advanced Florida Building Code: Energy Conservation 9th Edition (2026) Code Standards and Guidelines
Provider: Gold Coast School of Construction, Inc.
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 11/10/2026
This is a 2-hour online course that is designed to help construction industry professionals stay up to date on items related to the Florida Energy Conservation volume of the Florida Building Code. The course consists of self-paced online reading materials, PowerPoint presentations, and a 10-question final assessment at the end of the course.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

31.) Course Number 1449.0….

Course Advanced Florida Building Code: Energy Conservation 9th Edition (2026) Code Standards and Guidelines
Provider: Gold Coast School of Construction, Inc.
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 11/10/2026
This is a 2-hour instructor-led course that is designed to help the construction industry professionals stay up to date on items related to the Florida Energy Conservation volume of the Florida Building Code. The course consists of lectures, PowerPoint presentations, and class participation activities.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

32.) Course Number 1450.0….

Course: Advanced Florida Accessibility Code 9th Edition (2026)
Provider: Gold Coast School of Construction, Inc.

Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 11/10/2026
This is a 1-hour instructor led course that provides building code administrators, plans examiners, inspectors, design professionals and contractors with an overview of the key components of the Florida Building Code, Accessibility, 9th Edition (2026), effective December 31, 2026. This course provides 1 hour of Area of Accessibility (AOA) training as required by the Building Code Administrators and Inspectors Board
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

33.) Course Number 1453.0….

Course: Advanced Florida Accessibility Code 9th Edition (2026)
Provider: Gold Coast School of Construction, Inc.
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 11/10/2026
This is a 1-hour online course that provides building code administrators, plans examiners, inspectors, design professionals and contractors with an overview of the key components of the Florida Building Code, Accessibility, 9th Edition (2026), effective December 31, 2026. This course provides 1 hour of Area of Accessibility (AOA) training as required by the Building Code Administrators and Inspectors Board.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

34.) Course Number 1456.0….

Course: Florida's Building Codes: 9th Edition Updates Advanced Code Class
Provider: International Code Council
Accreditor: JDB Code Services, Inc.
Accreditation Date: 11/10/2026
This is a 2-hour instructor-led course that reviews and discusses the building codes currently in effect in Florida, their navigation, their governance and their relationship with the international codes. This training also reviews and discusses changes and provisions new to the 9th edition of Florida's suite of Building Codes as they relate to the design of structures.
NOTE: *The parts of the Syllabus need to be placed in a more logical order.*
Otherwise*…As a result of an administrative review of this course,* ***I found no issues and recommend approval.***

35.) Course Number 1446.0….

Course: Advanced Florida Building Code, 9th – 2026: Common Codes, Standards and Guidelines
Provider: Gold Coast School of Construction, Inc.
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 11/10/2026
This is a 1-hour instructor-led course that will walk through the Florida Building Code with the goal of locating and understanding commonly encountered codes. This course covers administrative responsibilities, such as inspection requirements and Occupancy Classification, as well as technical responsibilities, such as fire resistance and foundation requirements. This course is based on the Florida Building Code, 9th Edition (2026), effective December 31, 2026.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

36.) Course Number 1447.0….

Course: Advanced Florida Building Code, 9th – 2026: Common Codes, Standards and Guidelines
Provider: Gold Coast School of Construction, Inc.
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 11/10/2026
This is a 1-hour online course that will walk through the Florida Building Code with the goal of locating and understanding commonly encountered codes. This course covers administrative responsibilities, such as inspection requirements and Occupancy Classification, as well as technical responsibilities, such as fire resistance and foundation requirements. This course is based on the Florida Building Code, 9th Edition (2026), effective December 31, 2026.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

37.) Course Number 1459.0….

Course: Advanced Florida Building Code (2026) 9th Edition: Changes for HVAC Contractors, Internet
Provider: Anytime Certification
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 11/10/2026
This is a 1-hour online course that teaches Florida HVAC and mechanical contractors the Florida Building Code, 9th Edition (2026) changes for HVAC work: which edition governs a permit; Group A2L refrigerant provisions; the refrigerant piping test (Section 1110); condensate

insulation, rooftop ladders and flood-damaged equipment; ventilation, exhaust and dryer makeup air; ducts and plenums; and Energy Conservation and Fuel Gas changes, including duct testing and equipment sizing.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

38.) Course Number 1461.0….

Course: Advanced 9th Edition (2026) Florida Building Code: What Changes on December 31 (Internet)
Provider: Acoreous Lewis
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 11/13/2026
This is a 2-hour online course that explains the 9th Edition (2026) Florida Building Code changes that most affect contractors: which edition applies; saltwater corrosion; doors, siding, WRB, flood, and wind; commercial building changes; roofing; smoke and CO alarms; lofts, EV charging, and energy storage; A2L refrigerants and energy code; residential and public pool changes under Section 454; commercial electrical, emergency power, and PV changes; and plumbing.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

39.) Course Number 1458.0….

Course: Advanced 9th Edition (2026) Florida Building Code: Flood Hazard and Saltwater Coastal Provisions - I
Provider: Cam Tech School of Construction
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 11/14/2026
This is a 1-hour online course that covers the flood-hazard and saltwater-coastal changes in the 9th Edition (2026) Florida Building Code, including the flood-related items in Supplement 1 approved by the Florida Building Commission on October 13, 2026.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

UPDATED COURSES…December 2026 ED POC Meeting

1.) Course Number 1196.1….

Course: 2026 Florida Advanced Building Code (1 Hour)
Provider: Rocket Cert
Accreditor: JC Code and Construction Consultants, Inc.
Accreditation Date: 11/06/2026
This is a 1-hour online course that is designed to provide construction professionals with an in-depth understanding of the 2026 Florida Building Code. Divided into four parts, this course covers a range of critical topics that address advanced concepts, materials, and methods outlined in the Florida building code.
As a result of an administrative review of this course, ***I found no issues and recommend approval.***

2.) Course Number 881.3….

Course: Four-Hour Advanced Internet Course on Ch. 16 Florida Building Code 9th Edition 2026
Provider: PDH Now
Accreditor: Bill Dumbaugh
Accreditation Date: 11/15/2026
This is a 4-hour online course that is designed as an advanced distance learning interactive course that enables the practicing professional engineer to review the Florida Building Code Chapter 16 Building Structural Design, 9th Edition, 2026.
After an administrative review of this course, it was found that*…*

d. The Certificate of Completion was missing
e. The reference of "881.2" should be changed to "881.3" on page 9 of the syllabus.
f. The references of "8th Edition (2023)" should be changed to "9th Edition (2026)" on syllabus pages 9 (twice), 10 (top), 11 (top), 12 (top), 13 (top), 14 (top), 15 (top)
g. **As a result, I recommend denial of this course because it does not meet the full requirements of Rule 61G20-6.002. However, the ED POC could motion to instead conditionally approve this course, subject to adding a Certificate of Completion and making the noted changes of "8th Edition (2023)" to "9th Edition (2026)", in the Syllabus.**
