Parcel ID: 2923192676000010

Dear Accessibility Council:

This accessibility waiver request pertains to adding vertical accessibility to the mezzanines within the combat area of NYZ Apocalypse. With the unique use of the space, the addition of vertical lifts or elevators add additional safety hazards to a fast paced game that is played in low light. This would require extra supervision, and/or the addition of barriers and gates to confined spaces.

The mezzanines are less than 1/3 the total square footage of the combat area and do not give a player an advantage over plays on the ground level. The game can be fully played from the main level which abides to the 2014 Florida State Accessibility Code.
