Re: Appeal by Hendrick Roofing, Inc.

Dear Mr. Jones

I am in receipt of your letter dated December 19, 2017 regarding Hendrick Roofing, Inc.'s appeal of the ruling of the Building Official of the City of Seminole, Florida (Streeter Residence, 11115 73<sup>rd</sup> Avenue, Seminole, FL 33772), Permit: BLDR-2313-2017. Upon review of your letter the PCCLB through its Board of Adjustment and Appeals, does not have jurisdiction to consider this manner. The denial of the Request for Local Product Approval does not raise the technical question of whether the materials at issue satisfy the Building Code standards; as such the determination does not fall within the scope of the PCCLB's authority. Indeed, the basis for denial is factual in nature and is not subject to PCCLB interpretation.

Based on the foregoing factor, the PCCLB is not authorized to take further action and the parties are encouraged to conclude this matter.

Sincerely yours,

A handwritten signature in cursive script that reads "Gay Lancaster".

Gay Lancaster  
Interim Director

cc: Jim Ford, Building Official City of Seminole  
Carl E. Brody, Esquire
