Legislative Issues Update
Jim Richmond, Commission Attorney, provided an update on legislative issues of interest to the
Commission from the 2010 Florida Legislative Session, and answered member’s questions. Members
were provided a matrix with status updates for bills of interest to the Commission. Jim provided the
Commission with a status update on SB 648 (Bennett: Commission’s recommendations), HB 663
(Aubuchon: expedited product approval, and roof mounted mechanical equipment), HB 975 (Fetterman/
Porth: reactive drywall taskforce), SB 1044 (Aronberg: reactive drywall taskforce), SB 2694 (Constantine:
Commission’s recommendations), and HB 7095/SB 846 (Bennett: prohibits the adoption of ICC residential
sprinkler requirements into FBC, Residential Volume).

Jim reported that there are two new bills sponsored by Senator Constantine with tasks relevant to the
Commission. They are SB 550 that if passed will require the Commission to develop recommendations for
water conservation, and SB 570 that if passed will require the Commission to develop recommendations for
recycling of construction materials and composting.
Following is the status of legislation relevant to the Commission:

Up-to-date information can be obtained via the Legislature’s website, [http://www.leg.state.fl.us](http://www.leg.state.fl.us). Until a bill reaches the full chamber, amendments are most consistently available via committee pages linking to their meeting packets rather than from particular bill pages. Bill pages will reflect whether a particular bill is scheduled to be heard in Committee.
