**Subject:** [External] Elevator quote for Sigma Delta Tau

Good morning Kyle, I hope you are doing well. We are working on a new renovation project for Sigma Delta Tau Sorority on the FSU campus, and are trying to put together some planning/budgetary numbers for the installation of an elevator.

Can you please provide me with a quote for the following:

- 3-stop hydraulic holeless elevator – based on HydroFit model
- 2100 lb capacity, 100 fpm
- Total travel distance is approximately 21'-1"
- Standard cab design and finishes, no "frills"
- All openings inline

Please don't hesitate to call me if you have any questions or need additional information. Thanks for your help.
