

# **Advanced Florida Building Code - Flooring**

**FBC Advanced Course**

a 2-hour program

Presented By

**DESIGN ARTS SEMINARS INC**

---

## **LEARNING OBJECTIVES**

Upon completion of this course, you will:

- Be acutely aware of Florida Building Code requirements as they relate to flooring.
  - Have an understanding of the extent to which design professionals and the construction industry must research all aspects of the Florida Building Code in order to assure the safety of their clients and adhere to the law.
  - Understand the Florida Building Code requirements surrounding the issues of slip-resistance management, mold and mildew mitigation, waterproofing, and sound isolation.
  - Know exactly which provisions of the Florida Building Code address flooring design and construction
-
