Welcome:

Time: 1:00 pm

Ms. Peters welcomed everyone to the teleconference concurrent call of the Mechanical TAC and Energy TAC. She provided information for the callers on how to mute systems to avoid background noise.

Roll Call:

Ms. Peters performed roll call for the Mechanical TAC. A quorum was not determined as there were only 5 members present. Ms. Peters advised the Mechanical TAC that they do not have a quorum and will be able to participate but no motions will be taken.

To review and accept final draft report for research project titled “Evaluation of the Cost Impact of the 2015 I-Code Changes. [Documents](#)

Dr. Issa provided a power point presentation of the cost analysis.

Mr. Griffin stated he had opened the link and what is being presented is not what is being shown on the go to meeting screen.

Mr. Madani said the report he is looking at is the full report and not the presentation.

Ms. Hammonds advised what they are viewing is a power point presentation and will be linked later and what you downloaded is a comprehensive report.

Public Comments:

Mr. Belcher asked for the Mod number on VAV Boxes. He further stated at the beginning of the report it states IECC was this a separate report and were all changes due to IECC.

Dr. Issa stated they are reporting to each TAC and this covers all IECC.

Mr. Chyz advised the number is CE 259-13.

Mr. Madani advised there is an appendix which holds the code changes and reference number of each code change.

Ms. Peters asked for any additional members that had joined the call. There was not a quorum.

The meeting adjourned at 1:45 pm.
