List of Potential Projects for FBC Education POC
August 4, 2010

Items listed below are broken down in "manageable" pieces (in terms of time and funding) and *are subject to available funding*.

PROJECTS TO IMPROVE/ENHANCE USEFULNESS OF THE BUILDING CODE INFORMATION SYSTEM (BCIS):

-- Add feature to BCIS that will allow any person to obtain a list of courses (approved AND accredited awaiting FBC approval).

-- Update BCIS to allow course providers to post: available courses, dates and locations course will be delivered, other approvals (DBPR boards, etc.), and cost to take the course(s) (not limited to only FBC approved courses – limited to courses available for FBC affected licensees).

-- Improve BCIS to modify view of course titles and more

-- Provide "discussion board" on BCIS for accreditors, providers, and licensees to pose questions and comments.

-- Modify BCIS to make some technical improvements (list is kept and fixes are done as funding permits).

PROJECTS TO IMPROVE/ENHANCE COURSE DEVELOPMENT:

-- Develop training components on course development to make available for course developers/providers (available on-line and in approximate increments of 15 or 30 minutes).

-- Develop tutorials to post in BCIS at various points of submission of course applications.

-- Perform outreach to encourage course developers/providers to become more familiar with (and better use) features of BCIS.

PROJECTS TO IMPROVE/ENHANCE COURSES

-- Develop course survey/comment form for use by any course attendee

CURRENT FUNDING for DCA Contract: Total $50,000

Quarterly workgroup meetings (minimum of two)	$ 5,000
Course audits (at $1,000 each)	$ 5,000
Education administration	$15,000
BCIS enhancements	$11,250
Non-binding opinions	$13,750
