

Mr. Madani,

This is a formal complaint about **RM Enterprises Inc., FLORIDA. PRODUCT APPROVAL NUMBERS FL3203-R1.**

The following attachments are from **Ted Berman's office, and from the supplier that RM Clip sold to.** That clearly stated that RM Clip is not approved, the approval is for roof stand, and he can not referral this approval number in his package of clip.

Almost one year after the state told him not to do so, he still Claim that his clip is Florida approved and has a approval number FL3203-R1. This package is purchased on May 27<sup>th</sup>, 2011, and was shipped to this distributor in 2011.

Because FL3203-R1 did not state all of the necessary information needed for a clip to be approved, and he knowingly violate the state rule that he can not referral to FL 3203-R1 as approval for his clip. **I would recommend canceling RM Enterprise Inc.'s FLORIDA PRODUCT APPROVALS FL3203-R1 and FL3203-R2 ASAP. Also, I would like to have a written formal letter from The Florida Dept. of Community Affairs stating the cancellation of RM Enterprise Inc.'s FLORIDA PRODUCT APPROVALS FL3203-R1 and FL3203-R2. (both was done by the same engineer)**

**I also recommend state stop him from selling his clip using misleading approval information and fine him for the damage he has done.**

**I also recommend the state to cancel any engineering was done by Frank L Bennardo, lic #PE0046549**

If you have any questions please contact me or The Ted Berman's office.
