Subject: Supplemental Information RE: DEC Statement Request DS 2012-021

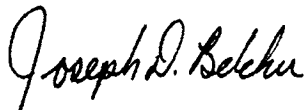

Please consider this a request to add an additional petitioner to the requested Petition for Declaratory Statement DS 2012-021. Tropical Windows, Inc. is a company in the business of selling and installing windows in existing and new buildings and structures. Currently, Tropical Windows is in the process of providing an estimate for the replacement of all the windows of a single-family dwelling in Citrus County, Florida. The

project consists solely of replacing the windows of the residential dwelling and the value of the project does not exceed 30 percent of the assessed value of the structure. Tropical Windows, Inc. requests clarification by Declaratory Statement on the following question:

1. Since the project does not exceed 30 percent of the assessed value of the residential dwelling in accordance with Section 101.4.1 and Table 101.4.1 *Note d*, does Florida Building Code-Energy Conservation Section 402.3.6 apply to the project?

Should there be any questions, you need further information, or you wish to discuss this request, please do not hesitate to contact me at your earliest convenience.

Respectfully yours,

Code Consultant
Joseph D. Belcher
