COURSE SYLLABUS INFORMATION

COURSE DESCRIPTION

This 1 hour internet course is designed to give all construction professionals an update on the changes to the 2010 Florida Building Code. The course will offer email access to an instructor with a maximum 24-hour response time. The course will be timed and controlled through the website programming. The course contains questions which must be answered correctly to complete the course. Upon completion of the course, the student must print, sign and forward to our office, an affidavit certifying that he/she is the person who completed the course before a certificate of completion will be issued or data transferred to DBPR.

COURSE SYLLABUS INFORMATION

COURSE OBJECTIVES

SPECIFIC LEARNING OBJECTIVES

This internet course will provide persons working within the construction profession an overview of the Administrative Chapter (1) of the Florida Building Code, Building and an understanding of changes in the Florida Building Code. The sections to be referenced will cover: General, Applicability, Duties and Powers of the Building Official, Permits, Submittal Documents, and Inspections.
