

University of Central Florida
Global Parking Garage Addition – ADA Waiver
Licensed Design Professional Information

07/01/15

To: ADA Accessibility Council

RE: Licensed Design Professional information, seal, and comments.

To Whom It May Concern,

Here is the Licensed Professional information for the UCF Global Parking Garage Addition project:

Architect

Patrick Rauch, AIA

License Number: AR96974

Additional Comments:

The location of all ADA spaces on the ground floor may be considered a benefit to handicapped people using this garage. All ADA spaces will be located along the perimeter of the structure and have immediate access to a sidewalk and access to the University at all sides. At no time will someone be required to egress behind a vehicular stall to get to the required exit path.

Sincerely,

Patrick G. Rauch, AIA
