## GROUNDS FOR APPROVAL

- **Economic Hardship**

- Does the cost of providing vertical accessibility meet or exceed 20% of the cost of the alteration to the primary function area?
- If the 20% threshold is met, the waiver **SHALL** be granted.
- Does not apply to new construction.
  - Fit-outs/Build-outs are considered new construction

- **Historic Nature**

- Has the applicant provided documentation of the historic significance of the building?
- Would the historic significance of the structure be negatively impacted by the alterations applicant would have to make to provide accessibility?
- Can be combined with Technical Infeasibility or Economic Hardship

- **Technical Infeasibility**

- Is the structure built in a way that would otherwise place unnecessary, unreasonable, or extreme hardship on the applicant, if they were required to provide accessibility?
  - Has the applicant provided comments from a licensed design professional?
  - Would have to rebuild, demolish, encroach on property lines, etc.

## ACCESSIBILITY ADVISORY COUNCIL

### 835 Alton Rd - WAV # 362

**Issue:** Vertical accessibility to the second floor.

**Project Type:** Alteration to an existing building or facility

**Project Progress:** Under Design

**Compliance estimate + Amount spent on accessible features: \$336,480.00**

**Project Construction Cost + Construction Cost Over Past 3 Years \$1,062,217**

**Economic Hardship Threshold:  $336,480 / 1,062,217 = 32\%$**

**Applicant alleges the hardship is caused by historical significance and substantial economic hardship**

#### **Analysis:**

The applicant is requesting a waiver from providing vertical accessibility to second floor. The project consists of an alteration to three existing structures one of which is a two-story structure. The project also includes a change of use from twenty apartment units to eighteen hotel units, interior and exterior renovations, new retail at Alton Rd, new lobby at the Archway, and a new pool in the courtyard. The total construction cost for this project has been calculated to be \$1,062,217.00. The applicant has submitted two cost estimates for compliance for vertical access to the second floor of the two-story structure which have total amounts of \$382,739.00 and \$336,480.00 for the installation of an elevator with its associated installation costs. The lowest accessibility compliance estimate plus the amount spent on accessible features is \$336,480.00 which is 32% of the total project construction cost. This analysis only addresses vertical accessibility to the second floor of the two-story structure. The applicant alleges the hardship is caused by historical significance and substantial economic hardship.
