Good afternoon Mo,

The questions I would ask the petitioner.

I would like to have more information about how many roof tiles are damaged and how the petitioner determined the additional percentages of roof cover in yellow? I would like to see pictures of the roof areas and get diagrams to scale. Also I'd like to know if the Building Official has commented on the project.

ANSWER: The number of damaged tiles is not listed on the table, but rather the table reveals the conversion between exposure of a tile (deducting head-lap and side interlocking) performed by me, expressed in % damage per each roof section, and the subsequent additional imposed damage to undamaged material that becomes part of the repair as per FEBC 502.3.

ANSWER: Please see attached the Plan reviewer related to repairs.

Best regards,

Mark Zehnal, CPRC, LEED AP® BD+C
