

GROUNDS FOR WAIVER – Continued

While there are multiple rooms or “booths” contained in the space, there is only one overall tenant. The services that are provided on the 2nd floor will be identical to the services provided on the first floor of the space. There are no differences in the views, equipment, facilities provided or quality of the space between first and second floors.

If the Exception #1 of Section 202.3 does not apply to this project, in what instance does it apply?
