

(3) The commission shall use the International Codes published by the International Code Council, the National Electric Code (NFPA 70), or other nationally adopted model codes and standards for updates to the Florida Building Code. The commission may approve technical amendments to the code as provided in subsections (8) and (9), subject to all of the following conditions:

(a) The proposed amendment must have been published on the commission's website for a minimum of 45 days and all the associated documentation must have been made available to any interested party before consideration by a technical advisory committee.

(b) In order for a technical advisory committee to make a favorable recommendation to the commission, the proposal must receive a two-thirds vote of the members present at the meeting. At least half of the regular members must be present in order to conduct a meeting.

(c) After the technical advisory committee has considered and recommended approval of any proposed amendment, the proposal must be published on the commission's website for at least 45 days before consideration by the commission.

(d) A proposal may be modified by the commission based on public testimony and evidence from a public hearing held in accordance with chapter 120.

The commission shall incorporate within the Florida Building Code provisions that address regional and local concerns and variations. The commission shall make every effort to minimize conflicts between the Florida Building Code, the Florida Fire Prevention Code, and the Life Safety Code.
