RE: ADA Accessibility Budget

To whom it may concern:

Cuesta Construction is the general contractor for the above referenced project. Based upon the plans provided to us by the architect of record, The Weber Studio, which are approved by the City of Miami Beach (Permit # BC1807748), the total amount budgeted for ADA accessibility improvements is \$107,500 (One Hundred Seven Thousand Five Hundred Dollars). This budget includes improvements to furnish the three ADA accessibility ramps, handrails, structural foundations, electrical requirements and related finishes.

Regards,

Michael Cuesta
President
