Prestige Packaging Inc.
17080 Alico Commerce Ct. Suite 1
Fort Myers, FL 33967

Scope of work:

Construct mechanical room, elevator pit, and elevator shaft

1. Saw cut and remove existing concrete floor for elevator pit and shaft
2. Excavate down to approximately 5' below finished concrete floor and remove dirt
3. Dig and pour footers along with a monolithic slab.
4. Block up walls of shaft along with mechanical room walls. Shaft walls to extend a minimum of 5' above car height on 2nd floor.
5. Install Epicore deck to mechanical room ceiling
6. Back fill around shaft walls below grade
7. Pin and dowel existing concrete slab and re-pour to new shaft walls.
8. Supply separate electrical service to elevator mechanical room.
9. Install a steel set of 6068 hollow metal doors with punched and dimpled frames for mechanical room.
10. Install commercial grade Hagar lock sets
11. Prime and paint "tool finished" masonry on shaft walls. Color TBD

Labor and materials \$ 45,125.00

Excludes:

1. Any additional fill or stone
2. De-watering of elevator pit if needed
