

Council members please consider our request to remove damaged unusable elevator.
Please note included pictures revealing the 18" elevator and ramp.
It has not been used in 13 years.
Parts are missing and the manufacturer is no longer in business.
We have searched for repair parts to no avail. Even the state inspector could not find parts to repair.
So, he has locked it out; hence it cannot be used anyway.
Replacement of unit is cost prohibiting; it would have a devastating financial effect.
As you can see by the pictures, we have a full length concrete ramp for full accessibility to the small raised dining area. The door is just a few feet west of elevator.
More pictures or information upon request.
