E. 1. PUBLIC COMMENT

Commissioner Stone invited members of the public to address the Product Approval POC on any issues under the POC's purview.

Public Comments:

Mike Steele: commented on DBPR FL 15769-R3. Stated there is a need to clarify limits of use on the application.

Mo Madani (DBPR): this product is a DBPR expedited approval, and comments must be made in writing by a specified date and must be technically substantiated. The application complies with the requirements for approval. Staff review is an administrative review and relies on the approved entities for evaluation and documentation of their products.

Mike Steele (Greenheck Fan Corporation): commented on DBPR FL 21829. Application does not list on the application the specific testing standards that correspond to the specific products.

Ted Berman (Ted Berman and Associates) (validated the product): all of the products comply with the corresponding standards and to list them all in the manner requested by the commenter (Mike Steele) would make the application confusing. The way that the application was submitted is a clearer way to convey the information.

Ted Berman (Ted Berman and Associates): indicated that he had comments regarding certain DBPR approvals, but indicated that he did not submit comments pursuant to the comment submittal timeframes, and noted that he would comment to staff off-line as appropriate.

E. 2. POC MEMBER COMMENT

Commissioner Stone invited POC members to offer any general comments to the POC.

There were no POC comments.
