As you requested -The specific situation proposed for the use of private provider services in conjunction with this "Dec statement" will be- at the time of permit application mechanical contractors will notify the local jurisdiction with the paperwork prescribed in FS 553.791 that a private provider has been selected and appointed by the owner of the property to provide the final inspection on an A/C change out. Upon completion of the permitted work, the local jurisdiction will be notified that a final inspection will be performed by NOVA, and when completed the local jurisdiction will be notified with prescribed paperwork form Florida Statutes 553.791- thus providing a consistent and thorough inspection process for both our clients and the end users of our services. Please don't hesitate to call if I can be of any further assistance.

Regards,

*Roger W. Sanders CBO,PX,BN,ER*
