RE: Clarification on rule 9B-72

Mr. Madani,

Fenestration Testing Laboratory would like to become an entity that conducts product validation, quality assurance, and product inspection. We are aware that the State of Florida does not grant testing laboratories certification for product validation, however we are not seeking to validate work performed by FTL, but rather work conducted by other entities. The employees conducting product validation will not be involved with the employees from the testing laboratory. Another cooperation under a different name can be opened so that both companies are not finically tied.

Sincerely,

Fenestration Testing Laboratory Inc,

*Jose Sanchez*
