**To:** Madani, Mo  
**Cc:** Bigelow, Joe  
**Subject:** Proposed modifications to be pulled for individual consideration

Good Morning Sir,

I would like to request (4) proposed modifications be pulled from the consent agendas for individual consideration:

1. EN7206 = I am requesting the Commission overturn the NAR recommendation of the Energy TAC and approve the original proposed modification as recommended by the Electrical TAC.
2. EN7330 = I am requesting the Commission overturn the NAR recommendation of the Energy TAC and approve the original proposed modification.
3. F7336 = I am requesting the Commission overturn the NAR recommendation of the Fire TAC and approve the original proposed modification.
4. EN8045 = I am requesting the Commission overturn the Approved as Submitted recommendation of the Energy TAC, restore Section C401.2 to as published in the 6<sup>th</sup> Edition (2017) FBC-Energy Conservation Code, and reject any further attempts to modify this section of the Code.

I believe that covers it for me. Please let me know if you need anything else from me.

Please take care and have a nice day,

Bryan
