

Equivalence of Product Standards *for* FL 12582.1 R2

RE: Test Standard Equivalency Statement

Based on my evaluation of the standards relative to the evaluation reports in the above referenced Florida Product Approval:

- The ASTM E330-97 standard version used to test the evaluated product assembly is equivalent to ASTM E330-02 standard version per Rule 61G20-3.015(1)(a) and (b) .
- The ASTM E1996-02 standard edition used to test the evaluated product assembly meets or exceeds the ASTM E1996-06 standard edition referenced in the Florida Building Code 2010 and is equivalent for determining code compliance.
