Re: DASMA 108-2002 AND DASMA 108-2005 Equivalence

To Whom It May Concern:

ANSI/DASMA 108-2005 is now referenced in Chapter 35 of the 2007 Florida Building Code (Building). A review of ANSI/DASMA 108-2005 and comparison to ANSI/DASMA 108-2002 and ASTM E330-2002 shows that the ANSI/DASMA 108-2005 is at least equivalent to ANSI/DASMA 108-2002.

The main changes were to include the category of Rolling Steel Doors and to document equivalency with ASTM E330-2002.

Any testing conducted in accordance with ANSI/DASMA 108-2005 is equivalent to testing in accordance with ANSI/DASMA 108-2002.

Sincerely,

A handwritten signature in blue ink, appearing to read "Scott Hamilton", with a date "8/21/10" written below it.
