Dear Mo –

It has come to our attention that there is an error in the petition that needs to be revised.

Under the Situation section, we wrote:

...The repair method selected involved removal and replacement of non-damaged components upslope of the damaged components, which added an additional 25 percent of the roof section area to be disturbed as part of the repair...

That sentence should be revised as follows:

...The repair method selected involved removal and ~~replacement~~ reinstallation of non-damaged components upslope of the damaged components, which added an additional 25 percent of the roof section area to be disturbed as part of the repair...

This revised verbiage is similar to what we wrote in the Summary section:

...If the removal and reinstallation of non-damaged components are counted toward the 25 percent threshold stated in Section 706.1.1, a relatively small roof repair could trigger a complete roof section replacement, depending on the area of non-damaged roofing components removed and reinstalled as part of the repair...

We apologize for the revision.

Your attention to this matter is greatly appreciated

Jeff

Dear Mr. Madani –

Please see the attached Draft Petition for Declaratory Statement (revised).

Per our conversation last week, I have included a sample scenario. I am submitting this again (in advance of our formal submission) so that you can review it from completeness.

Your assistance with this matter is greatly appreciated.

All the best,

Jeff

Dear Mr. Madani –

Please see the attached Draft Petition for Declaratory Statement.

Per our conversation a few weeks ago, I am submitting this in advance of our formal submission so that you can review it from completeness. It is understood that the submission deadline to be considered in the April meeting is February 23, 2021.

I had some other questions:

1. As SDII is a corporation, are we required to be represented by an attorney in this matter? (I entered my name in the attorney field for now)
2. Is there a fee associated with this petition?
3. Is there a public hearing that we are required to attend as part of this process?

I appreciate your attention to this matter.

All the best,

Jeff
