RE: Vertical Accessibility Statement – Jesuit High School Press Box

Mr. Peterson,

The waiver of ADA vertical accessibility requirements for the press box at this site appears to be justified based on Jesuit High School's current site constraints of the existing grandstands and the existing baseball outfield wall. The addition of an elevator tower would obstruct the only existing circulation route between the other facilities on the site. Given the site's land-locked nature and the necessity of maintaining this critical pathway, the proposed design on piers is an appropriate solution to serve the need of the press box but not conflict with accessibility around the entire site.
