

DICK BROWN PARK – DAVE MANZO FIELD

Issue: Vertical accessibility to all rows of seats in two bleacher systems at a baseball field.

Analysis: The applicant is requesting a waiver from providing vertical accessibility to all rows of seats in two aluminum bleachers costing \$101,251. Accessible seating is planned for the first row of each bleacher. No estimates were provided; however, the applicant stated it would increase the cost of the project tenfold to make each row accessible.

Project Progress:

The project is under design.

Items to be Waived:

Vertical accessibility to all rows of seats, as required by Section 553.509, Florida Statutes.

553.509 Vertical accessibility. Nothing in Sections 553.501-553.513 or the guidelines shall be construed to relieve the owner of any building, structure or facility governed by those sections from the duty to provide vertical accessibility to all levels above and below the occupiable grade level regardless of whether the guidelines require an elevator to be installed in such building, structure or facility, except for:

- (1) Elevator pits, elevator penthouses, mechanical rooms, piping or equipment catwalks and automobile lubrication and maintenance pits and platforms;
- (2) Unoccupiable spaces, such as rooms, enclosed spaces and storage spaces that are not designed for human occupancy, for public accommodations or for work areas; and
- (3) Occupiable spaces and rooms that are not open to the public and that house no more than five persons, including, but not limited to equipment control rooms and projection booths.

Waiver Criteria: There is no specific guidance for a waiver of this requirement in the code. The Commission's current rule, authorized in Section 553.512, Florida Statutes, provides criteria for granting waivers and allows consideration of unnecessary or extreme hardship to the applicant if the specific requirements were imposed.

This application is available in alternate formats upon request.

REQUEST FOR WAIVER FROM ACCESSIBILITY REQUIREMENTS OF CHAPTER 553, PART V, FLORIDA STATUTES

Your application will be reviewed by the Accessibility Advisory Council and its recommendations will be presented to the Florida Building Commission. You will have the opportunity to answer questions and/or make a short presentation, not to exceed 15 minutes, at each meeting. The Commission will consider all information presented and the Council's recommendation before voting on the waiver request.

* Briefly explain why the request has now been referred to the Commission.

In speaking with Tom Hogarth, Building Department Director of School District of Palm Beach County, we were informed that the proposed design could not be approved without a waiver.

7. **Requirements requested to be waived.** Please reference the applicable section of Florida law. Only Florida-specific accessibility requirements may be waived.

8. **Reason(s) for Waiver Request:** The Florida Building Commission may grant waivers of Florida-specific accessibility requirements upon a determination of unnecessary, unreasonable or extreme hardship. Please describe how this project meets the following hardship criteria. Explain all that would apply for consideration of granting the waiver.

The hardship is caused by a condition or set of conditions affecting the owner which does not affect owners in general.

see attached

Substantial financial costs will be incurred by the owner if the waiver is denied.

see attached

The owner has made a diligent investigation into the costs of compliance with the code, but cannot find an efficient mode of compliance. Provide detailed cost estimates and, where appropriate, photographs. Cost estimates must include bids and quotes.

9. Provide documented cost estimates for each portion of the waiver request and identify any additional supporting data which may affect the cost estimates. For example, for vertical accessibility, the lowest documented cost of an elevator, ramp, lift or other method of providing vertical accessibility should be provided, documented by quotations or bids from at least two vendors or contractors.

The cost to provide access to every level of the bleacher would exceed the cost of the project approximately tenfold. It would require ramp or lift access to every level of seating, wheelchair cutouts for every row, 9.5" spacing between each row

10. Licensed Design Professional: Where a licensed design professional has designed the project, his or her comments MUST be included and certified by signature and affixing of his or her professional seal. The comments must include the reason(s) why the waiver is necessary.

See #1 thru #9 preceding. - Compliance would require completely different approach to design and construction at prohibitively

higher costs. Reasonable access is provided under current design.

Project: Dick Brown Park – Dave Manzo Field
900 22nd Avenue North
Lake Worth, Florida 33460

Reason for Request for Waiver:

The nature of stadium and bleacher design is not able to accommodate wheelchairs on all levels without resulting in a highly inefficient design and making the cost of the project unattainable for the Palm Beach County School district. Granting such access to all levels of seating would require ramp or lift access to each level, wheelchair cutouts on every row, and 5' spacing between each row. Our current design accommodates handicap accessibility at the first level of seating, as per Florida Building Code 2007, with 2009 amendments.

Sincerely,

A handwritten signature in black ink, appearing to read "Phil Vanderhider".

Subject Dick Brown Field Bleachers

I haven't received plans for this project and while it's conceptually very similar to bleacher systems, the Accessibility Advisory Council and Building Commission have reviewed in the past, it is in your best interest to have this information available prior to the meeting. The most expeditious way to proceed would be to e-mail this to me so it can be included in the waiver package on our website. Thank you and if you have questions, please contact me. MK
