

ACCESSIBILITY ADVISORY COUNCIL

GROUNDS FOR APPROVAL

- **Economic Hardship**

- Does the cost of providing vertical accessibility meet or exceed 20% of the cost of the alteration to the primary function area?
- If the 20% threshold is met, the waiver SHALL be granted.
- Does not apply to new construction.
 - Fit-outs/Build-outs are considered new construction

- **Historic Nature**

- Has the applicant provided documentation of the historic significance of the building?
- Would the historic significance of the structure be negatively impacted by the alterations applicant would have to make to provide accessibility?
- Can be combined with Technical Infeasibility or Economic Hardship

- **Technical Infeasibility**

- Is the structure built in a way that would otherwise place unnecessary, unreasonable, or extreme hardship on the applicant, if they were required to provide accessibility?
 - Has the applicant provided comments from a licensed design professional?
 - Would have to rebuild, demolish, encroach on property lines, etc.

Issue: Vertical accessibility to the second floor of the hotel.

Project Type: Historical Preservation (Alteration)

Project Progress: In Plan Review

Compliance estimate + Amount spent on accessible features: N/A

Project Construction Cost + Construction Cost Over Past 3 Years \$100,000 – 150,000

Economic Hardship Threshold: N/A

Applicant alleges the hardship is caused by the historic building on which compliance with the requirements for accessibility are not technically feasible.

Analysis: The applicant is requesting a waiver from providing vertical accessibility from the lobby to the second floor of the hotel. The project consists of a historical preservation alteration to an existing 12,179 sf hotel building. According to the applicant, due to the building's historic configuration, it is not possible to provide vertical accessibility in the interior of the buildings and the implementation of a stair-lift would impermissibly encroach the required means of egress. Furthermore, in order to provide vertical accessibility, the only other option, it would require constructing an elevator tower in front of, and attached to the historic facade of the buildings, thereby threatening or destroying the historic character of the buildings. The applicant is requesting a waiver based on the historic nature of the building on which compliance with the requirements for accessibility are not technically feasible.

Uploaded Documents:

1. Licensed Design Professional Letter
2. Proposed Construction Plans
3. Evidence of Historical Significance
4. Grounds for Waiver Letter

STAFF RECOMMENDATION:

The applicant has provided proof of the historical significance of the building. Staff recommends granting the request for waiver on the grounds of historic nature of the building.

Items to be waived:

Vertical accessibility to the structure, as required by section 553.509, Florida Statutes.

ACCESSIBILITY ADVISORY COUNCIL

553.509 Vertical accessibility. This part and the Americans with Disabilities Act Standards for Accessible Design do not relieve the owner of any building, structure, or facility governed by this part from the duty to provide vertical accessibility to all levels above and below the occupiable grade level, regardless of whether the standards require an elevator to be installed in such building, structure, or facility, except for:

- (a) Elevator pits, elevator penthouses, mechanical rooms, piping or equipment catwalks and automobile lubrication and maintenance pits and platforms;
 - (b) Unoccupiable spaces, such as rooms, enclosed spaces and storage spaces that are not designed for human occupancy, for public accommodations or for work areas; and
 - (c) Occupiable spaces and rooms that are not open to the public and that house no more than five persons, including, but not limited to equipment control rooms and projection booths.
 - (d) Theaters, concert halls, and stadiums, or other large assembly areas that have stadium-style seating or tiered seating if ss. 221 and 802 of the standards are met.
 - (e) All play and recreation areas if the requirements of chapter 10 of the standards are met.
 - (f) All employee areas as exempted in s. 203.9 of the standards.
 - (g) Facilities, sites, and spaces exempted by s. 203 of the standards.
- (2) However, buildings, structures, and facilities must, as a minimum, comply with the Americans with Disabilities Act Standards for Accessible Design.

206.2.4 Spaces and Elements. At least one accessible route shall connect accessible building or facility entrances with all accessible spaces and elements within the building or facility which are otherwise connected by a circulation path unless exempted by 206.2.3 Exceptions 1 through 7.

402.2 Components Accessible routes shall consist of one or more of the following components: Walking surfaces with a running slope not steeper than 1:20, doorways, ramps, curb ramps excluding the flared sides, elevators, and platform lifts. All components of an accessible route shall comply with the applicable requirements of Chapter 4 and 208.3.1.

Waiver Criteria: There is no specific guidance for a waiver of this requirement in the code. The Commission's current rule, authorized in Section 553.512, Florida Statutes, provides criteria for granting waivers and allows consideration of unnecessary or extreme hardship to the applicant if the specific requirements were imposed.
