2601 Blair Stone Road

Tallahassee, FL 32399

August 18, 2017

Ref: Keiser Univeristy Flagship Campus Athletic Field and Building

To Whom It May Concern:

The elevator hoistway will be approximately 50 ft. tall with a footprint of 8 ft. x 8 ft. The hoistway will need to be free standing because the pre-manufactured press box cannot accept any load from the elevator. The structure to withstand local Florida Building Code wind load given the height required, the freestanding nature of it and the small footprint is very costly.

An estimate provided by the builder is attached.

Alejandro Borrero, AIA, LEED AP
