The Future of Energy Code Compliance

Next-generation energy analysis software for codes, rating, and analysis

Date: Sep 23, 2026.

Dear Mo:

Subject: 2026 FL Energy Code Compliance Software - Request for Approval by the Florida Building Commission

eSynergyGlobal is pleased to submit EnergyGauge Summit 9.00.00 software for approval by the Florida Building Commission. This software version implements the Florida Building Code 9th Edition (2026) - Energy Conservation for commercial buildings.

Name of Product: EnergyGauge Summit version 9.00.00

The Commercial Code Compliance options the software implements are:

- ASHRAE 90.1-2022 - Energy Cost Budget Method
- ASHRAE 90.1-2022 - Prescriptive Compliance Option
- FBC 2026 - Total Building Performance Compliance Option
- FBC 2026 - Prescriptive Compliance Option
- FBC 2026 – Component Performance Alternative Option

The ASHRAE 90.1-2022 - Envelope Trade-Off and PRM (Appendix G) Options are not supported at this time.

The filing version of the software may be downloaded from the link below:

<http://esynergyglobal.org/summithelp/summit900filing/EnergyGaugeSummitSetup.exe>

Sample output reports from the test case run for each compliance option are attached. We hope they will help make your review process smoother. The sample input file, SummitTestCaseV900.egc, used to create these outputs is in the installed subdirectory...\Samples. We'll be happy to demonstrate the features via Zoom if you so desire.

Thank you

Sincerely,

Muthusamy Swami

President
