CREDIT

This course is worth one (1) advanced module/building code continuing education hour (or one general hour depending on which CE requirements have already been met.

LEARNING OBJECTIVES

1. To provide the student with an overview and basic understanding of the changes made to the 2001 *Florida Building Code* and that are present in the 2004 *Florida Building Code*.
2. To make the student realize just how extensive the changes to the 2004 *Florida Building Code* are thereby encouraging students to review the code in its entirety.

TEXTBOOK

All course material is presented online. All tables and charts are available to each student for printing through the "Digital Library" located on each student's home page.
