

Detailed Course Timeline

Course Name:

Post-Flooding Considerations and Mold

- 1. Overview/Available Guidelines.....5 minutes**
- 2. Safety (Injury and Illness Prevention)10 minutes**
- 3. Categories of Water.....5 minutes**
 - a. Category 1: Clean
 - b. Category 2: Gray
 - c. Category 3: Black
- 4. Water Damage (Clean Up – Dry Out/Repair/Throw Out) ...20 minutes**
 - a. Furniture/case Work
 - b. Ceiling tile
 - c. Paper/files
 - d. Carpet
 - e. Sheetrock
 - f. Electrical
 - g. Building components
 - h. Appliances
- 5. Understanding Moisture Movement10 minutes**
 - a. Bulk moisture movement
 - b. Capillary action
 - c. Air transport
 - d. Vapor diffusion
- 6. Mold.....15 minutes**
 - a. Conditions
 - b. Potential health effects
 - c. People at highest risk
 - d. Allergic symptoms
- 7. Levels of Remediation (Mold)10 minutes**
 - a. Level I: small isolated areas
 - b. Level II: mid-sized isolated areas
 - c. Level III: large isolated areas
 - d. Level IV: extensive contamination
 - e. Level V: remediation of HVAC systems

- 8. Mold Remediation.....10 minutes**
 - a. Testing
 - b. Tools
 - c. Indoor air regulations
- 9. Mold and Legal/Insurance Issues10 minutes**
 - a. Litigation issues
 - b. Insurance issues
 - c. Post-flooding tasks
 - d. Limits on claims
- 10. Summation.....5 minutes**
 - a. Education/resources
 - b. Evaluation
