Application for waiver from Accessibility Requirements:

- 1) **Dugger's Tropical Cottages Post-Disaster Rebuild (7Cottage) – Waiver 750- 2902**
West Gulf Drive, Sanibel 33957 -**ISSUE:** Vertical Accessibility to an elevated first floor.

Staff:

Mr. Sellers presented the waiver request with staff analysis and staff recommendation.

Analysis:

The applicant is requesting a waiver from providing vertical accessibility to the first floor of seven new cottages. The occupancy classification for the new cottages is Residential Group R1 (transient/short-term rental). This is a rebuilt project after catastrophic damage during Hurricane Ian. The rebuilding will consist of approximately 668, 705, 714, 702, 832, 816, and 1279 square feet cottages and compact layouts that provide all essential living functions on a single accessible floor. Each cottage will be reconstructed within the same footprint as its pre-storm predecessor and elevated to comply with the minimum flood elevation requirements. The attorney for the project stated that installing an elevator or platform lift would require major structural redesign, demolition, or expansion beyond reasonable limits. The total project

construction cost is \$2.2 million and the estimated development cost per cottage ranges from \$104,600 to \$200,000, depending on unit size (668 - 1,279 sq. ft.). Applicant alleges substantial financial costs will be incurred by the owner if the waiver is denied.

Staff recommends denying the request for waiver for vertical accessibility since the project is in question is new construction.
