Mo –

Somehow I missed submitting a proposal for inclusion of ASTM D8257 into the FBC-R. A proposal for inclusion in the FBC was approved as submitted (10145). This referenced standard correlates with several proposals related to Sections R905.1.1 and R905.1.1.1, and Table R905.1.1.1. Please accept this Public Comment to add this Standard. You will find the additional referenced standard on page 33 of the attached file, in **red text and highlighted yellow**. Please let me know if you have questions. Thanks!
