Design/System/Construction/Assembly Usage Disclaimer

- Authorities Having Jurisdiction should be consulted in all cases as to the particular requirements covering the installation and use of UL Listed or Classified products, equipment, system, devices, and materials.
- Authorities Having Jurisdiction should be consulted before construction.
- Fire resistance assemblies and products are developed by the design submitter and have been investigated by UL for compliance with applicable requirements. The published information cannot always address every construction nuance encountered in the field.
- When field issues arise, it is recommended the first contact for assistance be the technical service staff provided by the product manufacturer noted for the design. Users of fire resistance assemblies are advised to consult the general Guide Information for each product category and each group of assemblies. The Guide Information includes specifics concerning alternate materials and alternate methods of construction.
- Only products which bear UL's Mark are considered as Classified, Listed, or Recognized.

Roof Deck Constructions

Construction No. 310

July 26, 2011

Uplift — Class 90

Fire Not Investigated

1. **Metal Roof Deck Panels*** — No. 24 MSG min coated steel. Max panel width 16-1/2 in. End laps to occur adjacent to supports with panels overlapped 4 in. min.

ARCHITECTURAL BUILDING COMPONENTS INC ([View Classification](#)) — "SL Low Panel".

CENTRAL TEXAS METAL ROLLFORMING INC ([View Classification](#)) — "BATTLOC 100"

CENTRIA ([View Classification](#)) — "ADP 100" or "ADP 100C".

BEACON SALES ACQUISITION INC, DBA

COASTAL METAL SERVICE ([View Classification](#)) — "LT-100".

MBCI ([View Classification](#)) — " Craftsman Series SB ".

MCELROY METAL MILL INC ([View Classification](#)) — "Medallion"

NCI BUILDING SYSTEMS L P ([View Classification](#)) — "Craftsman Series SB"

1A. **Metal Roof Deck Panels*** — (Not Shown) - Coated steel panels may be physically curved at a radius of 20 ft or greater or mechanically curved between 4 ft and 2 nominal 19 ft.

CENTRIA ([View Classification](#)) — "ADP 100C"

MBCI ([View Classification](#)) — " Craftsman Series SB ".

MCELROY METAL MILL INC — "Medallion"

NCI BUILDING SYSTEMS L P ([View Classification](#)) — "Craftsman Series SB"

1A1. **Metal Roof Deck Panels*** — (Not Shown)- .032 aluminum panels. Max panel width 16-1/2 in. and rib height 3/4 in. End laps to occur adjacent to steel supports with panels overlapped 4 in. min.

MBCI ([View Classification](#)) — " Craftsman Series SB "

NCI BUILDING SYSTEMS L P ([View Classification](#)) — "Craftsman Series SB"

MCELROY METAL MILL INC — "Medallion"

1B. **Metal Roof Deck Panels* (Battens)** — Battens covering panel ribs and clips to be 3/8 in. wide and 7/8 in. high, formed from same type and thickness material as that used to fabricate metal panels (Item 1, 1A and 1A1).

CENTRIA ([View Classification](#)) — "ADP 100A Batten" also used with "ADP 100C" Panel.

MBCI ([View Classification](#)) — "Small Batten".

MCELROY METAL MILL INC ([View Classification](#)) — "Medallion I Batten"

NCI BUILDING SYSTEMS L P ([View Classification](#)) — "Small Batten"

1C. **Metal Roof Deck Panels*** — (Not Shown) — No. 24MSG min coated steel, max panel width 16.5 in., rib height, max 7/8 in. Panels continuous over 3 or more clips with no end laps.

DORAL ENTERPRISES INC, DBA SUN METAL ([View Classification](#)) — "Sunbatten".

1D. Metal Roof Deck Panels* (Battens) — (Not Shown) — (used with "Sunbatten" Panel) — No. 24MSG min gauge coated steel". U shaped, 1 in. high with 3/8 in. returns. Formed to snap over ribs of adjacent panels.

DORAL ENTERPRISES INC, DBA SUN METAL ([View Classification](#)) — "Sunbatten Cap".

2. Roof Deck Fasteners* (Panel Clips) — One piece, 3/4 in. high, 1-1/2 in. wide by 2 in. long. Min 24 gauge, coated steel clip. When coated steel metal roof deck panels used (Item 1 and 1A) clips are spaced 24 in. O.C.; when aluminum metal roof deck panels used (Item 1A1) clips are spaced 12 in. O.C. Guide holes in bottom of clip.

CENTRIA ([View Classification](#)) — "ADP 100A Clip" or "ADP 100C Clip" .

BEACON SALES ACQUISITION INC, DBA

COASTAL METAL SERVICE ([View Classification](#)) — "LT-100 Clip".

MCELROY METAL MILL INC ([View Classification](#)) — "Medallion I"

NCI BUILDING SYSTEMS L P ([View Classification](#)) — "SB Clip".

2A. Roof Deck Fasteners* (Panel clips) — (Not Shown) — One piece assembly, 2-1/2 in. wide, 15/16 in. high No. 24MSG min coated steel, clips spaced max 24 in. OC.

DORAL ENTERPRISES INC, DBA SUN METAL ([View Classification](#)) — "Sunbatten Clip".

3. Fasteners (Screws) — Screws used to attach plywood or OSB substructure (Item 4) to metal deck to be No. 14 dia. with Phillips or square drive head. Fastener length to be min of 1/2 in. longer than total thickness of the plywood or OSB, insulation and metal deck. Spacing to be 6 in. OC at plywood or OSB ends and 12 in. OC at 2 ft 0 in. pattern down length of plywood. (Total of 33 fasteners per 4 by 8 ft plywood or OSB sheet).

Screws used to attach panel clips to plywood or OSB to be No. 10 by 1 in. long pancake head wood screw with No. 2 Phillips head size. One screw per clip.

(Alternate — When bearing plates or oriented strand board (OSB) replace plywood). Screws used to attach panel clips through bearing plate into metal deck to be No. 14 type with Phillips head. Fastener length to be min of 1/2 in. longer than the total thickness of the insulation and metal deck. One per clip. An optional No. 10 by 1 in. self-drilling fastener may be used to attach clip to the bearing plate when installer chooses to install rigid board insulation and use bearing plate to hold it in place until clips and panels are installed.

4. Plywood or OSB — (Optional) — (Not shown) Min APA Rated plywood, exposure sheathing span C-D 40/20, nominal 1/2 in. thick or oriented strand board (OSB), nominal 7/16 in. thick, 4 x 8 ft. Sheets to be installed on top of Rigid Insulation (Item 5) in lieu of bearing plates (Item 4A). To be used with Rigid Insulation (Item 5), max thickness 4 in.

4A. Substructure — (Bearing Plates) (Optional) (Not Shown) — To be used in lieu of plywood or OSB (Item 4) with rigid insulation (Item 5) up to a maximum thickness of 6 in. Bearing plates to be 16 MSG min coated steel. Located under each clip (Item 2) for support.

5. Rigid Insulation — (Optional) — Foamed plastic, max thickness 4 in. when plywood or OSB (Item 4) is used and 6 in. when bearing plates (Item 4A) are used. density to be a min. of 2 PCF. or see products Classified under TJBX.

5A. Gypsum Board — (Optional, Not Shown) — Any 5/8 in. thick gypsum wallboard supplied in sheets 2x4 to 4x12 ft. Applied perpendicular to steel deck direction with adhesive. End joints to occur over crests of steel roof deck and be staggered 2 ft. in adjacent rows. The total cumulative thickness of the rigid board (Item 5) and gypsum board may not exceed total thicknesses shown under Item 5.

5B. Waterproof Membrane — (Optional) (Not Shown) — Used to protect plywood or OSB (Item 4). Installed under panels (Item 1).

5C. Vapor Barrier — (Optional) (Not Shown) — Installed on top of metal deck (Item 6) or on top of gypsum wallboard (Item 5A) if used. Minimum 6 mil plastic sheet.

6. Metal Deck — 22 MSG min thickness coated steel. Min depth 1-1/2 in. with deck to be welded to purlin in every other low flute, except for end laps which are welded in every low flute.

6A. Metal Deck — (Liner Panel) — Alternate to Item 6 — No. 18 MSG min thickness coated steel (33,000 psi min yield strength). Min depth 1-1/2 in., max pitch 6 in. Installed and attached to supports (Item 7A) with fastener spacing and type per deck manufacturer's instructions for uplift loading.

7. Purlin — Min No. 14 MSG steel (55,000 psi min yield strength).

7A. Supports — (Purlins) — Purlins used for liner panel support (Item 6) to be cold formed steel sections or structural steel components (hot rolled beams, channels, open web joists, etc.) may be used. Support spacing, min gauge and yield strength to depend on design conditions for uplift loading.

Refer to General Information, Roof Deck Constructions (Roofing materials and Systems Directory) for items not evaluated.
