Lewisville, TX 75067

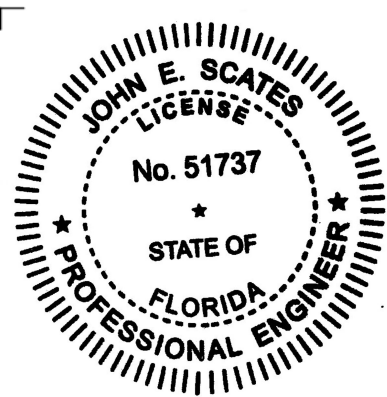

Re: FL 1421
Statement of Equivalence

To Whom It May Concern:

Within the test reports uploaded for FL 1421, the ATI reports cite ASTM E330-97, and the HETI cites ASTM E330-00. I have read these reports and affirm that the static test process used would also comply with ANSI/DASMA 108-2017.

Furthermore, I certify that I meet the requirements of "independence" as it relates to Wayne-Dalton (A Division of Overhead Door Corporation). Specifically,

- (1) I do not have, nor intend to acquire or will acquire, a financial interest in any company manufacturing or distributing these products.
- (2) I (my business) is not owned, operated or controlled by any company manufacturing or distributing these products.
- (3) I do not have nor will acquire, a financial interest in any company manufacturing or distributing products for which the reports are being issued.
- (4) I do not have, nor will acquire, a financial interest in any other entity involved in the approval process of the product.
