Re: Test Equivalency, Compliance with 2023 Florida Building Code, 8th Edition

Dear Mr. Davis,

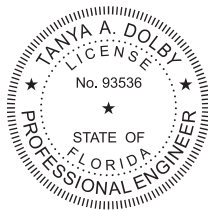

In reference to the 350/600/800 Series Fixed, Casement, and Project Out Windows, Architectural Testing Inc. (Intertek-ATI) reviewed the previous evaluation reports, testing, and relevant Florida Building Code sections. The review determined the content of the current 2023 Florida Building Code, 8th Edition had no changes that would affect the product testing or performance outcomes from those on the Florida Building Code 6th Edition (2017) and 7th Edition (2020). Any updates to the performance standards reviewed do not affect the outcomes of the tested product, or conclusions of the supporting evidence. Some anchorage was updated for consistency on the installation drawings.

The evaluation reports and installation drawings support compliance to the 2023 Florida Building Code, 8th Edition.

Sincerely,

Digitally Signed by: Tanya Dolby
