Dear Ms. Khedri,

Subject: Standards Equivalency Letter

Intertek Testing Services NA Ltd. (Intertek) had conducted a standards equivalency review for ASTM D1970 between its 2015/2015a and 2019 editions.

According to Intertek Test Report #104182997COQ-002 dated February 18, 2020, FT Synthetics' Cobalt Ultra Self-Adhered Roofing Underlayment has met the requirements of ASTM D1970-2019. The 2020 Florida Building Code – Building and Residential references the 2015a and 2015 editions respectively. Based on our review, the differences between the 2015/2015a and 2019 editions were found to be editorial changes only which will not affect test performance. Therefore, it is Intertek's opinion that the 2015/2015a and 2019 editions of ASTM D1970 are equivalent.

If you have any questions regarding this product evaluation, please do not hesitate to contact the undersigned.

Sincerely,

INTERTEK TESTING SERVICES NA LTD.
