Tallahassee, FL 32399

Regarding: Oldcastle Building Envelope  
FL36795.1– ArmorDefend Storefront (Non-Impact/Non-HVHZ)

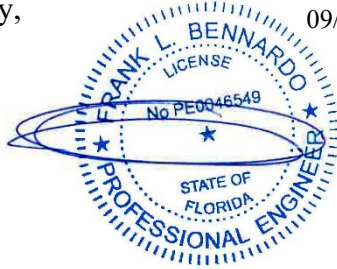

To Whom It May Concern:

This office has reviewed test reports showing structural performance of the above-noted product. These test reports pertain to testing performed in accordance with the referenced standards in the table shown below. These noted standards are not adopted in the Florida Building Code Eighth Edition (2023); however, for the purpose of determining the performance of the product, this standard is equivalent to the corresponding standards, which are adopted standards in the above referenced building code.

| Code Title                                                                                                                                                         | Tests Performed according to: | Current Equivalent Standard |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------|-----------------------------|
| Methods of Test for Exterior Walls                                                                                                                                 | ASTM E1886-12                 | ASTM E1886-19               |
| Standard Test Method for Determining Rate of Air Leakage Through Exterior Windows Curtain Walls, and Doors Under Specified Pressure Difference Across the Specimen | ASTM E283-12                  | ASTM E283-19                |

Respectfully,

09/27/23
