Evaluation Conclusion:

Where ASTM revision level differs, the testing requirements of both documents have been evaluated to determine if any differences exist that may result in testing outcomes different if based on the revision level required in the Current Edition of the Florida Building Code.

Where NFPA revision level differs, the testing requirements of both documents have been evaluated to determine if any differences exist that may result in testing outcomes different if based on the revision level required in the 9th Edition (2026) Florida Building Code.

It was determined that the evaluated product assembly testing is equivalent to the prescribed standards required by the 9th Edition (2026) Florida Building Code and Florida Residential Code
