To whom it may concern:

The address change notice is being made in support of the FL 5013 –R3 file revision request.

QMI, a shutter manufacturing company at the address listed above, bought out of bankruptcy the assets and intellectual property of Roll-a-way Storm and Security Shutters in January 2008. FL 5013 was one of the purchased assets and after continuing to fabricate the product at the original address until January of 2009 the manufacturing process was moved to Itasca. Persons interested may verify with NAMI, our QA entity, our current status.
